- Proficient in data analysis, databases, and related languages (Orange, SQL).
- Skilled in applying financial models (Ito Process, Black-Scholes, etc.).

PERSONAL SUMMARY

"Learning agility" and "efficiency" best describe me. I have a strong curiosity, learning from seniors, strangers, and even competitors. My principle is to bring action and cohesion to the team, helping every member grow and stay motivated through fast-paced collaboration. My motto is "Quick & Quality": master new knowledge in the shortest time, execute to the highest standard, and motivate the team to run, learn, and deliver together.
